DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: At the bottom of page 1, specific claims and subordinate claims are referenced. This is not permitted as the content of claims may be changed or the claims canceled.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 26-28, 41-44 and 48-50 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 500 225.
4. The reference discloses a process and apparatus for forming a three-dimensional object in layers which includes a construction area, a controller (microcomputer/microprocessor), construction platform (15) and conveyor (75).

Allowable Subject Matter

5. Claims 29-40 and 45-47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
